I don't see any course material

Steve Webster - 2015-10-01 - in Officials Training & Education

If you have opened a course and do not see anything under Learning Activities, there are two possible issues:

1) You are looking at an exam that is not yet available (target date is ~ October 15, 2015). Close the course and return after that date.

2) Some content is missing. Please open a help desk ticket to report the issue.

Thanks and have a great season.
