## Sunday Dec. 1 Academy Outage

2019-12-02 - Matt Podschweit - in General

On Sunday Dec. 1 the USAV Academy web service experienced a failure from about 10:30 a.m. MDT until about 7 p.m. During that period, many course registration did not go through. We have collected all the error notifications and have a team working on correcting these failed registrations. They should be restored in the next few days. If you have an urgent need, please submit a help desk ticket.
